

Georges Boulon

Emeritus professor

Patents (6)

1. Method for authentication of sensitive documents

By Grimal, Jean-Michel; Boulon, Georges; Perron, Maurice
Eur. Pat.Appl. (2002), EP 1182048 A1 20020227.

2. Process for rapid optimization of physical properties of solid materials consisting of metallic or chemical compounds by determining their ideal composition

By Cohen-Adad, Marie-Therese; Laversenne, Leatitia; Goutaudier, Christelle; Boulon, Georges
Eur. Pat.Appl. (2001), EP 1158288 A1 20011128.

3. Production of laminated, sintered, cut, and thermallytreated solid materials in a parallelepiped or cylindrical form

By Cohen-Adad, Marie-Therese; Laversenne, Laetitia; Goutaudier, Christelle; Boulon, Georges
Eur. Pat.Appl. (2001), EP 1158061 A1 20011128.

4. Method and associated apparatus for fabricating a crystalline fiber having a ferroelectric property

By Caterini, Richard; Boulon, Georges; Cohen-Adad Marie Therese
Fr.Demande (2000), FR 2794774 A1 20001215.

5. Device for optical measurement of cryogenic temperatures.

By Rouhet, Jacky Y.; Tribillon, Gilbert M.; Bertrand, Stephane; Boulon, Georges
Eur. Pat.Appl. (1995), EP 675348 A1 19951004.

6. Luminescent substance

By Vedrine, Alain; Gacon, Jean Claude; Boulon, Georges; Trottier, Danielle
Ger.Offen. (1979), DE 2836471 A1 19790315
